

Tank Alert® Duo Alarm

Monitor TWO levels conditions with ONE alarm!

Introducing the NEW Tank Alert® Duo Alarm from SJE-Rhombus!

The Tank Alert® Duo indoor/outdoor alarm system monitors **two level conditions** with **one easy-to-install alarm** for lift pump chambers, sump pump basins, holding tanks, sewage and other non-potable water applications.

The alarm horn and red beacon activate in **flashing mode** when a high water condition occurs. The alarm horn and red beacon activate in **constant on mode** for alarm 2.

Features:

- Enclosure meets Type 3R water-tight standard
- Manual alarm reset, horn silence switch, and alarm test switch
- Alarm horn sounds at 82 decibels at 10 feet (3 meters)
- High water alarm float included
- Alarm circuit (when installed on separate circuit) operates even if pump circuit fails
- Alarm 2 input for optional float:
 - Vertical Reed Switch
 - SJE SignalMaster® control switch
 - Sensor Float® control switch
 - Sensor Float® Mini control switch

Shown here with optional Vertical Reed Switch
