

QUICK POST PLUS™

System with Indoor Alarm

Easy to install Quick Post Plus™ system with indoor alarm provides convenient wiring connection and system monitoring for pump station applications.

The Quick Post Plus™ system features an 8 x 8 x 4 inch enclosure to connect alarm wiring and incoming power. The provided pump switch (a) receptacle plug pigtail is available in 120 VAC or 230 VAC to accept a piggyback plug, pump plug, and (f) optional ETM. The provided (b) factory-installed 22" weather proof post features access door for easy wiring. The system also includes the (c) riser extension conduit with stainless steel compression nuts to connect the mounting post to the riser, (d) two cord seals, (g) Tank Alert® AB or Tank Alert® AB DUO alarm, and (e) SJE SignalMaster® control switch.

The post can be mounted directly into the ground, over 4" x 4" (10.16 x 10.16 cm) post or over conduit.

FEATURES

- NEMA 4X enclosure with hinged door
- Factory installed mounting post with cover for easy wiring
- Receptacle pigtail (120 VAC or 230 VAC) and wiring terminal blocks for easy field connections
- Separate alarm and pump control circuit
- Riser extension 2.5 inch (6.35 cm) diameter coupling conduit to accommodate float piggyback plug
- Riser extension stainless steel compression nuts provide easy adjustability and strong connection
- Strain relief for pump and float cords, provided by cord seals
- Indoor Tank Alert® AB alarm, Tank Alert® AB DUO alarm, or MySpy® WiFi Messenger alarm
- SJE SignalMaster® control switch provides alarm activation.
- Elapsed Timer Meter (optional) provides pump operation timer

PART NO. DESCRIPTION

- **1053759** 120V QPP1, Tank Alert® AB, SJE SignalMaster®
- **1053760** 120V QPP1E, Elapsed Time Meter, Tank Alert AB®, SJE SignalMaster®
- **1053761** 120V QPP1DE, Elapsed Time Meter, Tank Alert AB® DUO, SJE SignalMaster®
- **1059013** 120V QPP1WIFI, MySpy®, SJE SignalMaster®
- **1053762** 230V QPP2, Tank Alert AB®, SJE SignalMaster®
- **1053763** 230V QPP2E, Elapsed Time Meter, Tank Alert® AB, SJE SignalMaster®
- **1053764** 230V QPP2DE, Elapsed Time Meter, Tank Alert AB® DUO, SJE SignalMaster®

QUICK POST PLUS™

Outdoor System

Easy to install Quick Post Plus™ outdoor system provides convenient wiring connection and system monitoring for pump station applications.

The Quick Post Plus™ outdoor system features an 8 x 8 x 4 inch enclosure with (a) integral alarm and terminals to connect alarm and incoming power. The provided receptacle plug pigtail is available in 120VAC or 230VAC to accept a pump switch piggyback plug, pump plug, and optional ETM. The provided (b) factory-installed 22" weather proof post features riser access door for easy wiring. The system also includes the riser extension conduit with stainless steel compression nuts to connect the mounting post to the (c) riser, (d) two cord seals, and (e) SJE SignalMaster® control switch.

The post can be mounted directly into the ground, over 4 x 4 inch (10.16 x 10.16 cm) post or over conduit.

FEATURES

- NEMA 4X enclosure with hinged door
- Factory installed mounting post with cover for easy wiring
- Receptacle pigtail (120 VAC or 230 VAC) and wiring terminal blocks for easy field connections
- Separate alarm and pump control circuit
- Riser extension 2.5 inch (6.35 cm) diameter coupling conduit to accommodate float piggyback plug
- Riser extension stainless steel compression nuts provide easy adjustability and strong connection
- Strain relief for pump and float cords, provided by cord seals
- Integrated alarm, beacon, horn, and test/silence switch or DUO alarm inputs
- SJE SignalMaster® control switch provides alarm activation
- Elapsed Timer Meter (optional) provides pump operation timer

PART NO. DESCRIPTION

- **1053765** 120V QPP1W, Integral Alarm, SJE SignalMaster®
- **1053766** 120V QPP1WE, Elapsed Time Meter, Integral Alarm, SJE SignalMaster®
- **1053767** 120V QPP1WDE, Elapsed Time Meter, DUO Alarm, SJE SignalMaster®
- **1053768** 230V QPPW2, Integral Alarm, SJE SignalMaster®
- **1053769** 230V QPP2WE, Elapsed Time Meter, Integral Alarm, SJE SignalMaster®
