

TIMEZONE™ CONTROL PANEL

Digital Timer Control Panel.

The **TimeZone™** digital timer control panel is designed to provide a convenient all-in-one package for any application requiring dependable on/off timing cycles. The large LCD real time clock display and rotary dial make the timer easy to set with up to four on/off interval cycles per day available. This display is visible in direct sunlight and features a super capacitor power backup to last up to 5 days. No battery required. The built-in circuit breaker makes installation easy, provides protection, and a means to disconnect the load. Additional features, such as the filter change alarm, and manual timer override, make operation and maintenance simple. The NEMA 4X weatherproof enclosure features a padlockable latch for added safety. Ideal for pool pumps, irrigation systems, lighting, fans and more. Suitable for residential, commercial and industrial applications.

PANEL COMPONENTS

1. Enclosure measures 20.32 x 15.24 x 10.16 cm (8 x 6 x 4 inches)
NEMA 4X (ultraviolet stabilized thermoplastic) for indoor or outdoor use
2. Padlockable latch
3. Integral mounting feet (not shown)
4. Circuit breaker provides pump disconnect and branch circuit protection
5. Large LCD timeclock display
6. ON/OFF/AUTO selector switch
7. Ground lug

SPECIFICATIONS

Operation: Four Timers (4 x ON/OFF cycles/day) available

Input Voltage: 100 to 250 VAC. 50/60Hz

Pump Ratings: 110/230 VAC, 50/60Hz

- 0-12FLA for 20A CB model
- 9-20FLA for 25A CB model

Power Relay: 2-pole, 25A rated

Operating temperature: -10°C to 50°C

Clock: Real Time clock with Super Capacitor power backup (5 days)

Accuracy: Turn ON/OFF time set accuracy (1 sec)

Enclosure: Thermoplastic, IP65
