

SJE QUEST® PUMP FLOAT - LATIN AMERICAN PACKAGE

Mechanically-activated, wide-angle pump switches designed for performance and dependability.

These mechanically-activated, wide-angle pump switches provide automatic control of pumps, alarms, and panels in wastewater and non-potable water applications.

This SJE Quest® float is packaged in a bilingual bag (English and Spanish) designed to easily display for retail customers in Latin America.

SPECIFICATIONS

- 125/250 VAC, 50/60 Hz, 4 Amp inductive load
- Mechanically-activated, snap action contacts (non-mercury)
- H05 RNF 0.75 mm² 3-conductor cable
- Direct control of pumps up to 3/4 HP at 250 VAC
- SPDT (3-wire, normally open or normally closed)
- Switch Dimensions: 7.7 cm x 13 cm x 4 cm (3 inch x 5 inch x 1.6 inch)
- Non-toxic, corrosion resistant polypropylene switch housing
- Temperature rating up to 50°C (122°F)
- Maximum water depth of 10 meters (30 feet)
- IPX8 enclosure rating
- Adjustable pumping range of 23 to 91 cm (9 to 36 inches)
- Patented sealing design provides excellent protection from moisture centering the float housing
- Includes one-piece cable weight for mounting

NOTE: These switches are not recommended for controlling electrical loads less than 100 mA, 12 VAC. Must be used with pumps that provide integral thermal overload protection.

A Pump Switch is designed for Horsepower (HP) rated loads and is not suitable for control (pilot duty) applications. It will fail prematurely when switching loads less than 1 Amp at 120 VAC. Select a float switch from our Control Switch offering for control applications.

Not available for sale in Canada or USA.
