

WISH YOU COULD SEE MORE  
SYSTEM INFORMATION EASILY  
FOR TIMED DOSE INSTALLATIONS?  
**NOW YOU CAN!**

## Digital Timed Dose Control Panel

This next generation timed dose solution offers a digital display, advanced functionality and pump protection.

### Problems

- Want a solution that offers **flexibility with level control**?
- **Limited data** slowing down troubleshooting?
- **No pump protection**?
- Worried about **failure** leading to home **flood damage**?

### Solution

The **Digital Timed Dose** simplex control panel features a digital timer to turn the pump on/off through a power relay.

Easy-to-read LCD screen offers a quick and simple view of system status and performance, including tank, pump and level control.

Level control flexibility (4-20mA transmitter or float switch control) and pump protection (overload) provide efficient operation and added safety.

### Results

- + Freedom to choose level transmitter or float switch in the field for **operating flexibility**.
- + Allows **oversight** into the status of tank, pump and level control.
- + Provides the ability to **troubleshoot** pump and level sensing issues **before the pump is damaged**.
- + Provides **peace of mind** against pump failure.
- + **Protecting the pump** saves costly repairs

**A COST COMPETITIVE CONTROLS SOLUTION!**
