PS PATROL® SYSTEM
Outdoor Pedestal High Water Alarm System

The newly enhanced PS Patrol® system features all the same functions you have come to expect, plus so much more over other traditional pedestal-style alarms.

The PS Patrol® features a **built-in high water alarm** and provides a convenient location to connect all wiring required for a pumping station application. It employs a **receptacle** for easy connection of a 120V pump and piggy-back pump switch.
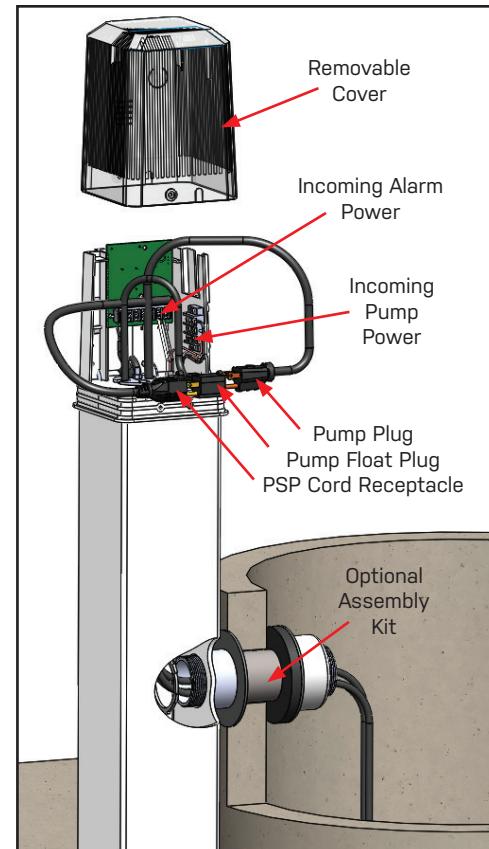

The sleek, angled design of the clear enclosure includes a **removable cover** for easy access for field wiring and viewing components. All internal components are sealed within the cover for protection from the elements. The **red LEDs illuminate the top of the cover** in an alarm condition for easy 360° visual identification. Available with or without 32" mounting post.

U.S Patent No. 9472,932 and D780,703

FEATURES

- Enclosure meets Type 3R water-tight standards
- Innovative design allows alarm to accept a 5" square plastic post or 4" pipe/conduit for mounting
- Automatic alarm reset and green power on indicator
- Flush mount horn silence/alarm test switch
- Auxiliary alarm contacts included for easy attachment of remote devices
- Includes cord seal for sealing switch and pump cables
- Electrical potting cavity to provide easy, reliable method to seal power cables *(electrical duct seal not included)*
- Options include various switch cord lengths, riser assembly adapter, dual alarm, and elapsed time meter

PART NO.	DESCRIPTION
1022728	PSP2 120V, no pump switch, with post
1019021	PSP2 120V, no pump switch, 20A breaker, with post
1022575	PSP2 120V, ETM, with post
1022577	PSP2 120V, DUO alarm, ETM, with post
1018434	PSP2 120V, TAAB indoor alarm, with post
1011551	Assembly Kit (riser extension coupling and washers)
